APARTMENT SAFETY FOR PETS

Many dogs and cats spend much of their day with little to do. They sit at home, resting and waiting for their human companions to return home from work. They also may not be getting the exercise they need each day. Be sure to spend as much fun time with your pet when you are at

home as possible. Include him in activities.

THE HEAT IS ON

Keep your energy bills down by making sure your water heater is working efficiently. Keep your water heater temperature set to 120 degrees or less. Not only will you save money, but this lower setting is safer for your family. You can save up to \$25 annually if you use an electric water heater and up to \$18 annually for a gas water heater. Consider insulating your water heater and hot water pipes. To see if you need insulation, feel them. If they are hot to the touch, you can benefit from some insulation to reduce heat loss. If you are looking to replace your water heater, consider a high-efficiency model. While it will cost more than a standard model, you will see payback within 2-3 years for a gas model.

PUBLIC TRANSPORTATION SAFETY

When traveling on public transit, practice awareness when getting on and off the bus. Wait at a bus stop that is well-lit and has lots of traffic and people around if possible. Sit near the front of the bus so you are closer to the driver. When exiting a bus, be aware of those exiting at the same time. Travel immediately to a safe spot and continue to your destination.

LOCK UP YOUR VEHICLE

What are the top things that attract car thieves? Unlocked doors, rolled-down windows, a key in the ignition, and valuables in plain sight. To protect yourself, always remember to lock up your vehicle and take your keys with you. Don't leave valuables, bags, purses, or backpacks in view. Take these precautions even if you are just away for a few moments.
