

## INVITING GUESTROOMS

If you're planning for some guests in your home, consider these ideas. Along with clean bed linens, consider adding a featherbed mattress topper, extra pillows, and extra blankets for your guests. If there is space available, have a small upholstered chair in a corner. Offer

some bottled water and some light snacks. The room should have adequate lighting, including a reading light by the bed. A simple alarm clock is a necessity.

## MONEY BAD HABITS YOU CAN BREAK

**Refusing to use a budget:** Keeping track of all your expenses can show you where your money is going and where you can cut back.

**Using credit cards to get the perks:** It doesn't make sense to get the miles or save a little more on your purchases if you are racking up the interest charges. Only use your credit card if you can pay it off each month.

**Not having an emergency fund:** That rainy day will come. Even putting a little bit aside can keep you from reaching for a high-interest credit card when you have an unexpected emergency.

### A TRICK FOR THE KITCHEN!

Have you ever dug your spoon in an ice cream tub where the ice cream was too hard to scoop? Well here's a neat tip on how to fix that! Store your tub of ice cream in a ziploc bag when you put it in the freezer to keep it from getting too hard. Do this to save yourself from bending a spoon; enjoy your ice cream!

### FOOD TIP

When you find a good price on milk, you probably wish you could stock up. The best way to store milk long-term is by freezing it. To freeze milk, remove about one cup from a gallon container of milk to prevent the jug from expanding too much when frozen. It can be frozen for up to 3 months.
