Sleeping and Weight

If you struggle with your weight, you may want to take a look at your sleep health. Studies have found a link between too little sleep and weight gain. Lack of sleep can cause an increase in hunger hormones, and daytime fatigue can lead to less exercise. To set your metabolism in better working order, be sure to get about 7.5 hours of sleep each night.

Food Tip

When you find a good price on milk, you probably wish you could stock up. The best way to store milk long-term is by freezing it. To freeze milk, remove about one cup from a gallon container of milk to prevent the jug from expanding too much when frozen. It can be frozen for up to 3 months.

Driving in the Dark

With winter here, there are fewer

hours of light each day. The National Safety Council reports that traffic death rates are three times greater at night than during the day. Learn how to minimize their risks when driving after dark. Make sure your headlights are in proper working order. Clean your windows and lights. Aim your headlights properly. Follow other vehicles at a safe distance. You should also reduce your speed at night, as it becomes harder to judge other vehicle's distances and speeds after dark.

Rent

Rent is due by the first day of the month, so please pay your rent on time. Rent paid after the fourth of the month will be assessed a daily late fee. Please contact the office immediately if you anticipate difficulty with payment.
